Critical Thinking
Problem Solving
Blueprints/C++/C#

ACADEMIC EXPERIENCE

Play Tester

July 2020 - January 2024

Full Sail University- Winter Park, FL

- Finished Game Design Certificate Coursework to learn basic game design work process and programming fundamentals.
- Learned fundamental object-oriented programming and C language principles, including critical thinking, data types, components, and control flow.
- Developed and documented steps, milestones, processes, and outcomes of a numerical game utilizing an Integrated Development Environment (IDE).

WORK EXPERIENCE

Lead Game Designer

March 2025 - Present

Sneaky Pixel Studio- Austin, TX

- Designed core pillars, mechanics, and initial GDD for Return of the Old Gods.
- Prototyped and iterate designs in unreal engine to ensure quality.
- Create blueprints to support core mechanics and progression.

Level Designer

March 2025 - Present

Electric Hat Games LLC.- Austin, TX

- Built Nuzzles for an unannounced project to make flight fun and engaging.
- Applied Agile and Iterative processes to ensure balanced and enjoyable gameplay.
- Created unique POI's for new flight possibilities with unique biome interactions.

Game Design Intern

March 2021 - September 2021

Replay Esports- Orlando, FL

- Investigated new builds reporting and documenting any bugs found with light debugging to narrow down possibilities.
- Communicated between Lead Developer, Producer, and Art teams to stay on track with game's vision and schedule.
- Designed UI and flowcharts for menus and tutorial screens.
- Managed tasks in task managers (Asana and Favro) when needed and provided swift feedback.

EDUCATION

Bachelor of Science in Game Design (B.S.)

March 2025

Full Sail University, Winter Park FL

Certificate in Game Design

February 2021

Full Sail University, Winter Park FL
